3pm ET

Screen Time: Emerging Topics & Technologies

Early childhood is a period of rapid growth and development - physically, cognitively and socially. In this webinar, an early childhood expert will discuss the emotional changes and sometimes bewildering behaviors that occur during the early years. She will also offer practical strategies for raising and supporting secure and emotionally healthy kids!

Mental Health and Well-Being in Early Childhood

Discover the range of services provided by schools to help all children have a successful experience. Join this webinar to gain an understanding of common terminology – RTI, IEP, 504 – and learn more about your benefit. You'll also find out how the pandemic has impacted the way schools are delivering these services and how things might continue to evolve.

All children develop at different rates. But some children experience developmental delays because of disabilities or other at-risk conditions. Join this webinar to learn about clinical cues and red flags that could indicate that your child might benefit from having Early Intervention (EI) services. You'll also find out how to navigate the evaluation and eligibility process – even during a pandemic.
